## FINAL PLANS MADE FOR AUTOMOBILE SHOW

No More Cheap Season Tickets After Tonight—Prizes for Work of High School Students—"Leave It to John" the Solution of Most Problems—Dress Suits and Drip Pans a Deep, Dark Mystery.

A most enthusiastic meeting of the executive committee of the Automobile Show, which opens tomorrow in the armory, was held at the Stuyvesant Tuesday afternoon. Reports of the advance sale of tickets, which by the way, will end this evening, were most encouraging, showing that with fair weather conditions the show will be a financial success.

Nobody said anything about the error made in the ad. of the show in Tuesday's Freeman, so it may as well be stated right here and now that Judge Cunningham will speak on Thursday evening at 8 o'clock, not Monday evening, as the ad. stated. The error carried its own correction from the fact that there is to be no Monday evening at the show, which opens tomorrow morning at 10 o'clock and closes Saturday night as soon as the last visitor is out of the armory.

Judge Jenkins's Wasted Time. It was announced that Judge Jenkins would preside on Thursday evening and introduce Judge Cunningham, which is really putting Judge Jenkins to a lot of trouble for nothing, as everybody already knows Judge Cunningham. Friday evening the speakers will be Secretary of State Hugo and Secretary Herbert W. Baker—not the Secretary of War, but the Secretary of the State Automobile Association.

"Leave It to John." Some time was spent in arranging the order in which exhibits were to be placed in the armory today in readiness for the show but so many details that depended on conditions at the moment developed and had to be sidetracked with the remark, "Leave it to John," that it was finally decided to leave about all of it to John R. Millard, who spent a busy evening last night chalking out the spaces for the exhibition, resting lights, answering foolish questions and listening to Ford jokes. One solution for Mr. Millard's troubles suggested at the meeting was that there need be no trouble over getting the Ford's in position as they could be carried in and lifted over the rear automobiles.

The Censorship in Force. The Freeman reporter having been forbidden to mention drip pans or dress suits in his account of the meeting, readers will have to attend the show in order to find out what action was taken on these two absorbing features.

Prizes for Students. High school students having made placards for the exhibits it was voted to have a first prize of \$5 and a second prize of \$3 awarded for the best work, the awards to be made by judges selected by Mr. Service of the high school, to act as chief judge. Chief Judge Service and his associates will deliberate and decide during the show. For each placard that does not win a prize \$1.50 is to be paid.

After leaving a few more things "to John" the meeting adjourned to a date to be fixed later when the committee will assemble to divide the honors, or losses, as the case may be.

QUICK GOVART SALE. Zad—By Recourse to Freeman.

The following was received by The Freeman this morning and speaks for itself. There is no better result getting than the one—our ad. and letters in The Freeman. One advertiser for a farm hand received over a score of answers, and although the ad. had been in the paper for some time, the answers were still coming. Kingston Daily Freeman.

Woman's Auxiliary Meeting. The regular meeting of the Woman's Auxiliary of the Y. M. C. A. will be held at the Y. M. C. A. armory at 2 o'clock. During the business session, plans for next week's work will be considered, and for the forming of such plans it is desirable that all members be present. The auxiliary has the pleasure to announce that the next social will be held at the Y. M. C. A. armory on Thursday evening, March 14th, at 8 o'clock. The social will be a very pleasant one and all are invited to attend. The auxiliary has the pleasure to announce that the next social will be held at the Y. M. C. ## COMMITTEE CANNOT PROCURE TICKETS

Members Will See Parade From the Sidewalk—But More Important Work of Aiding Distressed Soldiers They Can Do.

The New York members of Mayor Canfield's committee, which Joseph Drake is chairman, with Arthur McCausland, Arthur Connors, Edward A. Kelly and John E. Curtis members, are daily besieged with requests for tickets for the reviewing stand for the New York parade on March 25. The committee has nothing to do with tickets, and can't get any, and if they see the parade it will be from the curb. The work of the committee in New York consists in locating and helping if necessary any Kingston soldier who may need their assistance, and this they will be glad to do. The office of the committee in New York is 116 Nassau street, and here Joseph Drake can be found. The telephone is Beckman 2319. Mr. McCausland is at 111 Broadway, phone Beckman 1814; Mr. Connors at 17 Battery Place, phone Beckman 3156; Mr. Kelly at Pier 45, N. Y. C. phone Spring 8890, and Mr. Curtis at 100 William street, with telephone John 4650. The members of the committee request soldiers, if they need help, to write or phone any one of the committee. Persons who want tickets should not bother this committee, as it entails a lot of unnecessary work for the members.

## ALARMING DROP IN W. S. S. SALES

Following is a letter from the city and country chairman of War Savings Stamps sales:

Kingston, N. Y., March 12, 1919.  
To the Public:  
Report of W. S. S. sales in Ulster county during February, 1919:  
Sales at Kingston ..... \$2,259.97  
Sales District P. O. .... 1,710.76  
Sales at Saugerties ..... 473.16  
Sales at Ellenville ..... 594.94  
Sales at New Paltz ..... 75.50

Total for February, \$5,114.27  
Reduced W. S. S. in Ulster county during February, 1919:  
At Kingston and District  
Post Office ..... \$2,992.61  
At Saugerties ..... \$1,710.05  
At New Paltz ..... 106.25  
Total Reduced for Feb. \$4,710.91  
This is alarming. Sales should be much larger. Owing to failure of icecrop and lack of employment there has been during January and February some cashing in of W. S. S. invariably all who have needed the cash for their stamps have stated that they would purchase of the 1919 issue as soon as their funds began to increase. The figures causing concern are in the upper division showing very little buying of the 1919 W. S. S. by those who have ready money coming in over and above their living expenses.

To all we say that the government needs your surplus cash to pay its obligations incident to the great war so successfully brought to its present successful issue. The army and navy must be paid, a merchant marine established, contracts completed, interest paid and money advanced. It is just as important and patriotic to loan the United States our surplus cash now as when the big German drive was at its height. Let us continue to do so.

WILLIAM D. BRUNNEN, County Chairman W. S. S.  
WILLIAM C. DE WITT, City Chairman W. S. S.

Second Mass Call. Enthusiasm is responsible for some very strange things. Yet it is hard to imagine that even the most enthusiastic fighter in the big drive now on to secure the additional boys and members of the Y. M. C. A. will forget that the second big mass call of the "Y" at six o'clock this evening. Rather than take an evening that some fellow might not recall that this is Wednesday evening of No. 145. The campaign is working in the campaign are expected to be present at the above stated hour.

## SPARTACIST MOVEMENT SPREADS FROM BERLIN

Reds Menace German Capital and Government Forces Unequal to Situation—Women Aid in Revolt.

A summary of the latest cables show that turbulence reigns in Berlin and at last reports fighting between the Spartacists and the government troops was still in progress. Women are taking part on the side of the former.

The Reds are again menacing the city from the southeastern side and according to one report the government must employ many reinforcements before they can dominate the situation.

The Spartacist movement is evidently spreading outside of the German capital for news was received of the proclamation of martial law in several cities in eastern Prussia as a result of this peril.

Twelve thousand Prussian officers are serving as privates in the government forces at Berlin.

Although the striking workmen voted to go back to work, many refused to do so. The workmen are openly friendly to the Reds.

## NO CHANGE IN SHIPYARD STRIKE

There has been no change in the shipyard strike on the Island Dock and the Hiltbrant shipyard, and the men are still out. So far there has been absolutely no disorder on the part of the strikers, and none is anticipated.

There was a special meeting of the shipyard workers held Tuesday night at Griffith's Hall, at which time it was stated that 62 additional members had been secured. Thursday night the regular monthly meeting of the union will be held in Odd Fellows' Hall on the Strand, and a large attendance is anticipated.

## TO RESUME WORK ON RONDOUT BRIDGE

Chamber of Commerce Head Has Telegram From Commissioner Duffy Saying Pier Contractor Must Begin By April 1.

The Chamber of Commerce received Tuesday night the following telegram from Commissioner of Highways Edwin Duffy, with respect to the progress in the preparation for the letting of contracts for the completion of the Rondout Creek bridge, in accordance with the assurance recently given the Chamber of Commerce by Commissioner Duffy: Albany, N. Y., March 11, 1919. Joseph M. Herbert, President Chamber of Commerce: Your letter received. Conferred with Senator Walton at length last week about the bridge. Our engineers will have plans and revised estimates ready for advertisement for bids within next few days. The notice was served March 3 on pier contractor to resume work by April 1. In case he does not resume his contract can be cancelled and bidders completed so as not to interfere with progress of remainder of work. EDWIN DUFFY, Commissioner of Highways.

## LOCAL DEATH RECORD.

Persons in This Vicinity. Josephine, daughter of Mrs. Apollinari Budvinski, died at the home of her mother, at 181 Fourth avenue, this morning, following a few days' illness of pneumonia. Funeral arrangements will be announced later.

The funeral of Harry C. Eckert, who died at his home, Lafayette street, Saugerties, on Sunday night, will be held Thursday morning at 10 o'clock, instead of 2 o'clock as the afternoon. Interment will be in Mountain View Cemetery.

Emily J. wife of Isaac Whitaker of Lomontville, died Sunday in her 54th year. Besides her husband she is survived by three sons, Homer and John of New York city, and Harry of Lomontville, and five daughters, Mrs. J. Naxon of Rhinebeck, Mrs. Rosewood H. Parbois of Rhine Park, Mrs. Lillian Stoll of Kingston, Mrs. Fred Gillespie of Catskill, and five grandchildren. The funeral will be held Thursday morning at 10 o'clock from her late residence in Lomontville. Interment in Harley Cemetery.

Alma Sahler, wife of Sherman Sahler, died at an early hour this morning at her home, 39 Franklin street, after an illness of three days. It was thought by those in attendance that she suffered a slight stroke Tuesday afternoon, which might have hastened her death, because of a complication of erysipelas and blood poisoning. Mrs. Sahler besides her husband, is survived by her mother, Mrs. K. Sahler, who resided with her. The deceased was for a good many years one of the society of the School No. 8, and was with deep regret that the board of education accepted her resignation last December when she was needed to her service and relatives will be held from her late residence at Franklin street on Friday afternoon at 2 o'clock, with interment in Willowick Cemetery.

## IN THE SERVICE OF OUR COUNTRY

Forestry Talk at High School. Professor H. C. Jones of the state college of forestry at Syracuse addressed the students of the high school this morning at chapel service with an interesting talk on the importance of forestry protection, which is and what it means. The state education department of the forestry college is making an extensive tour of the state and men of this department are examining the outlined area with a special application of the importance of forest preservation as a source of the surplusage of the water contained in our streams through out New York state.

## JEAN PONSOLLE FOUND DEAD AT WOODSTOCK

Jean Ponsolle, the two and a half year old son of John Ponsolle, who has been missing from home since Saturday, was found dead on the mountain side about one mile from his home this afternoon. Coroner Kelly was notified of the finding of the body by the state police and ordered it removed to the farm of R. R. Whitehead near Woodstock, where an autopsy will be performed.

Inquiry over the telephone to Woodstock this afternoon brought out the fact that as far as known the body was not mutilated in any way. The cause of death could not be ascertained before The Freeman went to press.

## N. Y. HARBOR STRIKE TIES UP TRANSPORTS

Berwind-White Company's Workers Go Out and Demand Government Take Over Barges—No Trans-Atlantic Sailings and Gov't Seen as Only Agency for Settlement.

New York, March 12.—All trans-Atlantic liners and government transports in this port are tied up today as the result of the sympathetic strike of 2,500 coal barge and tugboat workers employed by the Berwind-White Company, which handles 95 per cent of the coal for local shipping.

In announcing the strike union leaders issued an ultimatum, declaring that none of the workers would return to their jobs unless all barges and tugboats belonging to the company are commandeered by the government.

New York, March 12.—Secretary of War Baker was urged today to commandeer enough barges and tugs to supply transports with coal in a telegram sent by the Wholesale Coal Trade Association following reports that the troop ships have been compelled to go to other ports for bunker coal as a result of the local harbor strike.

Negotiations between the marine workers and the boat owners were at a standstill today and hopes for a settlement of the controversy rests in action by government officials, including Federal Conciliator James Hughes, who is expected to return to this city today.

The board of public works held a special meeting Tuesday afternoon, at which time authority was granted for the ordering of 20,000 to 30,000 gallons of asphaltic road oil, and 20,000 to 30,000 gallons of binder oil from the Standard Oil Company. This oil will be used in resurfacing the city streets and for repair work this summer. Recently the board placed an order for 50,000 gallons, more or less, of dustoline, for use in laying the dust on the city streets during the summer months.

The Universal Road Machinery Company quoted a price of \$750 for a 50 horse power engine for use at the stone crushing plant. This engine had been used before, and the board decided it was better to purchase a new engine, and instructed the secretary to write the Westinghouse and General Electric concerns asking for a quotation on a new motor.

James Hicks submitted a proposition to construct a refreshment booth at Kingston Point Park for \$250. The board directed the city engineer to prepare plans and specifications for the erection of the booth and to advertise for bids.

Residents of Clinton avenue, between Cedar and Henry streets, requested permission to place bushes across the roadway for ten days in honor of Captain Frederick Sorden, who was expected home from Camp Upton some time today. Permission was granted.

George C. Smith, who has leased the Marion House for garage purposes, made application to place a gasoline tank under the sidewalk, and his application was granted, subject to the usual conditions.

An applicant was also received from Miss Alice Burham for permission to place a military display case in front of 292 Wall street. It was referred to the superior agent with power.

The board then adjourned.

Holy Spirit Lenten Service. The week days Lenten services at the Church of the Holy Spirit until Holy week will be as follows: Wednesday, 7:30 p. m. Thursday, Holy Communion at 7:30 a. m. Friday, Holy Communion at 10 a. m. and evening service at 7:30. Saturday, Evening Prayer at 4:15 o'clock.

Daily Thought. Aspiration was only one side of every question; possession, mastery.

The many friends of William L. Zwicker ofoughborough will be pleased to hear that he is recovering nicely from the influenza, contracted while at work and has been discharged from the hospital.

Mr. and Mrs. Harry M. Pruden of No. 38 West 62nd street are receiving congratulations over the arrival of a daughter, Jean Carolyn, at the Kingston City Hospital. Mother and daughter are doing nicely.

Mrs. W. F. Walrath who has been spending the past two months with her parents, Mr. and Mrs. George Walrath of Albany avenue, has returned to Maine with her husband, leaving near Bangor.

Winifred Smith of 60 East Chestnut street, is spending some time in New York city with Catherine Lynch, formerly of 574 Broadway, this city. Mr. and Mrs. Claude Adams are receiving congratulations over the arrival of a son, Raymond Albert Adams, at their home.

Miss Freda Beye will be in New York city Thursday and Friday of this week buying spring merchandise for the newly department of the L. B. Van Wassen store on Wall street.

Mrs. W. F. Walrath who has been spending the past two months with her parents, Mr. and Mrs. George Walrath of Albany avenue, has returned to Maine with her husband, leaving near Bangor.

## DAIRY MEET AT UTICA MARCH 22

1,000 League Branches Electing Delegates—Object is Quick Action on Co-operative Plan.

Utica will again be the mecca of dairymen on March 22. On that date delegates from every one of the thousand branches of the Dairymen's League will gather from over a thousand farm communities to launch the campaign for general co-operative ownership of the country end of the milk business.

All league branches will hold meetings immediately to elect the best man available as a delegate to the Utica meeting. This delegate will attend the meeting and bring back to every local community where there is a league branch organized, the full details and plan of campaign of the league's co-operative project. Meetings will then be held in every community to place the plan before every dairymen. It is expected to complete the whole campaign before April 1.

The chief object of the general meeting at Utica and the local meetings to follow, is to get in the quickest way possible, correct information and understanding to every dairymen of the league's co-operative plan. The enterprise is so large in extent and so important in its nature that it is absolutely essential that every dairymen have a correct understanding of just what is proposed. After he fully understands the plan, it is, of course, up to him and his community as to what he wishes to do in regard to it. Judging from the pressure that has been brought on league officers since the trouble with the dealers in January, it is an assured fact that practically every league member will endorse the proposed plan and get unitedly back of it to carry it out.

Plan Demanded by Dairymen.

Hundreds of letters at the league office from all parts of the territory show that the dairymen are united in realizing and demanding that the league take a forward step looking toward the carrying for the surplus, the elimination of the constant trouble and friction with the dealers and toward putting the dairy industry on a more profitable and safe basis. Since the ending of the strike and before, the league officers have been working almost constantly to meet this demand from the members with a practical workable plan. It has been necessary in so large an undertaking to be extremely careful to get a plan that was fundamentally right. This has taken time, but the details are now nearly complete, and the project to be placed before the dairymen at Utica represents the best that league talent can do. On March 21, the day, preceding the Utica meeting, there will be a meeting of the league directors and county presidents when the plan will be explained and put before the directors for changes and approval.

# PEERLESS

## Two-Power-Range EIGHT

Modern Lightness—With Stability

THERE is much to be said for the closed car bodies that set the first high standards of coach building applied to motor cars.

Peerless leadership in Closed Car construction was established in the early days of the industry.

There is much to be said for newer methods—where they work real improvement.

The Peerless Closed Cars of today embody those fundamental principles developed by the old master coach builders, combined with all that constitutes genuine improvement in modern methods.

The result—modern lightness with stability.

Mounted on the famous Peerless Eight chassis, with its two sepa-

rate and distinct ranges of power, the Peerless Closed Cars of today maintain their leadership:

In substantial comfort they are not to be surpassed.

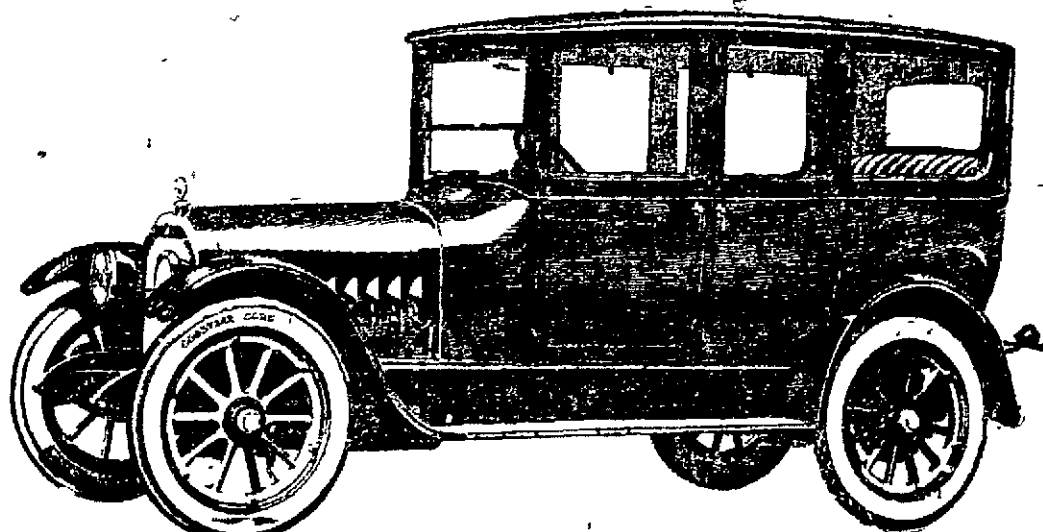

In operation they give the most distinctive performance yet attained by motor cars.

The "loafing" range offers the acme of soft, smooth, efficient, economical application of power.

The "sporting" range releases an abundance of power for emergencies and speed which few cars now possess.

## "DIRECT BITE TEETH"

After years of experimenting our laboratories have discovered a direct bite set of artificial teeth. These plates improve the sense of taste and insure perfect enunciation and articulation. The teeth absolutely cannot be discerned from natural teeth. These teeth because of the direct bite have three times the biting strength of ordinary plates. Are you now wearing artificial teeth? If so, we strongly advise you to call and investigate this new plate.

### AGRICULTURE.

Observe all men; thyself most—Poor Richard.

Early hatched chicks escape many warm weather diseases.

The silo is one of the foundation stones of successful dairy farming.

Home gardens fit in with any program of better farming and better home making.

Something that everybody should look for, but which nobody wants to find—The European corn borer.

Test your seed corn for germination, no matter where you purchased it. It's better to be safe than sorry.

"The Dairy Herd" is the title of a bulletin the New York state college of agriculture at Ithaca will send you. Ask for P. C. F. 127.

Good substantial tenant houses, a garden, pure drinking water, the ownership of pigs, chickens, and a cow, tend to increase the efficiency of labor and stabilize our system of farming.

### Pests Wiped Out.

Recent a government hunter shot two male wolves which had killed 150 sheep and seven colts on two Wyoming ranches while another trapper bagged a pair of old wolves which had a record of killing \$4,000 worth of livestock a year. A third trapper destroyed 85 coyotes and 2 bobcats in one month, using six horses and 200 traps over a trap line varying from 50 to 100 miles in length.

### Ancient Place of Worship.

What is said to be the oldest place of continuous religious worship in the world is at Tai Shan, Shantung province, China. The place is near the town of Tainfu and is located amidst cultivated fields on the bank of a small stream. A shrine was built over the spot many centuries ago, long before the coming of Christ. China claims an antiquity of 50,000 years.

## HEDJAZ WANTS A GREATER ARABIA

The claims of the king of Hedjaz for the recognition of a greater Arabia presents another batch of conflicting interests for the consideration of the peace congress.

Included in this proposed new state is practically all of the peninsula of Arabia. Linguistic and racial lines form the basis for the Hedjaz claims, and to Emir Faysal, who was in Paris, representing his father, the king of Hedjaz, all who speak Arabic are Arabs and should come under one government.

At present the Hedjaz kingdom comprises that portion of the eastern Red

sea littoral from the Sinai peninsula to south of Mecca. The king and emir claim that parts or all of Palestine, Syria, Mesopotamia, and Arabia should become united into one great Arab speaking nation under the leadership of Hedjaz.

The interior of the Arabian peninsula is for the most part a barren desert, but here and there there are intermittent streams of sufficient volume to sustain the population. Since the collapse of Turkey, England has taken possession of the most important parts of what is geographically Arabia.

### PARROT TALKED TOO MUCH

California Hunters Use Their Shotguns on Bird That Spoke German.

Oakland, Cal.—Pluto, a much traveled parrot belonging to Mrs. J. H. Rathbone, Tunnel road, has changed his vocabulary. He landed two men in jail and lost his tail feathers, all because he insisted on speaking German. Dominico Garerane, Italian, and Mathew Grasseponie, French, were hunting near the Rathbone residence. Suddenly they heard a stream of disloyal German such as "Hoch," "Raus" and "Gott mit uns," issuing from a bush. Garerane and Grasseponie looked at each other. Then by a common impulse they clutched their shotguns and advanced on Pluto.

There was a roar of artillery. Pluto and his tail feathers parted company. A game warden, J. L. Bundock, who was in the vicinity, rushed to the spot. He found two indignant hunters a dead parrot babbling German and some tame pheasants. The hunters said they were after Pluto, but the warden looked askance at the pheasants and brought the men to the city. The parrot, according to Mrs. Rathbone, was the gift of a German sea captain and learned the language while on a sailing vessel.

### NYAWK WOULD BE STYLE HUB

Waist Makers Plan to Have Gotham Supersede Paris as Fashion Center.

New York—Plans for making New York and not Paris the style center of the world for women's clothing were outlined here at the annual meeting of the United Waist League of America, attended by delegates from all parts of the country.

Samuel A. Lerner, president of the organization, predicted that the movement would have the support, not only of the waist manufacturers but of the dress manufacturers, milliners and other producers of women's wear.

President Lerner announced that the Pennsylvania Railroad company had offered a site for a \$6,000,000 building which it is proposed to build in this city to house all the waist manufacturing plants in New York.

### HUNS POLISH YANKS' SHOES

Yankee Signal Corps Officer Says Americans Are Curiously to Germans.

Philadelphia—The Germans are now polishing the shoes of the Americans, who formerly did that themselves, says a letter from Lieut. Frank H. Birtle to his father.

Describing the march into Germany, he said: "We are sort of a curiosity to the inhabitants, and they have much fear that we will leave them to the mercy of the French and English."

The lieutenant has been overseas for a year with the Four Hundred and Fifth telegraph battalion and was slightly gassed once.

### PLANNING FOR WAR HISTORY

American Officers Sent to Italy to Study Regions in Which Battles Were Fought.

Paris, France—To insure the writing of an accurate history of the war a score of officers under orders to return to America have been detailed and sent to Italy to make a study of regions over which the Italian and Austrian campaigns were fought. A large number of officers are now engaged in studying the devastated regions of France and Belgium for the same purpose.

### ANCIENT TAVERN IS CLOSED

Dry Movement Shuts "Blue Anchor," Operating Since 1682 in Philadelphia.

Philadelphia—The rising tide of prohibition has swept away another ancient hostelry, the Blue Anchor, at Front and Dock streets, claimed to be the oldest tavern in Pennsylvania, and one of the two or three oldest in America.

The Blue Anchor is one of the landmarks of the city. Its walls bear the inscription that the inn was founded in 1682, shortly after the landing of William Penn, when Dock street was Dock creek. As a tavern and bar, the building on this site has been operated continuously for 237 years.

Chroniclers of Dock street say that the original building was burned in the later years of the eighteenth century, and that the present building dates from about 1789. The inn was long known for its fish dinners.

### Enemy Keeps Skeleton of Its Standing Army

Coblenz—Information reaching the Americans is to the effect that every infantry artillery and cavalry regiment which was part of the German standing army in July, 1914, continues in existence except some Alsace-Lorraine regiments, which were dissolved. These regiments, the reports agree, are now mere skeleton organizations, probably only a few numbering more than a thousand men each.

### LONDON USING MORE "DOPE"

Facts Brought Out at Inquiry Into Death of Young Actress in Metropolis.

London—Opium smoking and drug taking appear to be indulged in to a greater extent in bohemian London than is generally known.

Facts were disclosed at an inquest on a young popular actress which show that "doping parties" have been frequently held in various flats in the West and that cocaine and heroin are taken habitually and various trips made to "Chinatown" in Limehouse for the purpose of opium smoking or purchasing the drug.

The heroin is bought in small quantities for \$5 a bottle and cocaine is \$50 the bottle.

Witnesses at the inquest described parties held in flats where opium was smoked, the cost of the evening's entertainment ranging from \$25 to \$50. The authorities, seeking those who supply the drugs, have arrested one woman.

### ALL A. E. F. BOYS MUST WRITE

Overseas Soldiers Ordered to Send Postcards to Next of Kin at Home.

Paris, France—Every member of the American expeditionary forces will have to write a postal card and start it home and in the immediate future, according to an order issued. The order prescribes that the postcard shall be dated and inform the next of kin of the soldier's station, physical condition and the organization to which he is attached. The order was found to be necessary owing to the neglect of many soldiers to write to their people at home, who remained in ignorance of the whereabouts and health of their soldier relatives and therefore were kept in a constant state of anxiety.

### Zinc Shapes at Boiling Point.

Zinc is ductile between 212 and 302 degrees Fahrenheit and can then be shaped as required. But when either above or below these limits it becomes brittle and unshapeable and therefore not adapted for treatment. It melts at about 445 degrees Fahrenheit. At solidification it is surrounded by a thin film of zinc oxide.

## RIFTON PAYS THE PRICE.

A bill dissolving the corporation of the village of Rifton has recently been passed by the legislature. The reason for this action is that Rifton no longer needs or can support a village government because it is almost deserted, owing to the carpet mills around which the village was built having been closed and dismantled. Beginning in 1828 with the cotton mill of Arnold & Co., the fine water power at Rifton was developed gradually for three quarters of a century until a few years ago the development reached its height in the new Dimick carpet mills, built to replace the old mills. The finest grades of carpet were made, giving employment to hundreds of happy and prosperous families, many of whom invested their savings in homes in Rifton and the neighboring village of Tilton. Wages were not high, but employment was steady, the cost of living was low and the surroundings were sanitary and beautiful. In order that modern improvements, such as streets and electric lights might be installed, the thriving village was incorporated, the mill owner being by far the largest taxpayer. Harmony between employer and employee had existed from the beginning.

But the employees were not organized. They were contented and prospering, but when paid organizers came in from outside and told them they were slaves and should organize to obtain freedom they yielded, slowly at first. Of course, there was a strike and a "readjustment" that for a time seemed satisfactory. Then more organizers came in from outside, there were more strikes, more readjustments, more organizers, more strikes, until finally, weary of the constant battle and worn out by the succession of organizers and agitators, the owners of the mills that had brought the village into existence closed them permanently. The organizers and agitators did not suffer any from this. They moved on to fresh fields to earn their living by inducing others to hatred and strife. But the mill owners and the mill hands who had become home owners paid the price, and Rifton is today a deserted village.

If Rifton had, at the outset, turned its back on the trouble-makers and gone on in its old way it would have been an exceedingly prosperous place now, instead of being deserted. If its people had concentrated on minding their own business and insisted on others doing likewise, instead of organizing to raise funds with which to pay parasites who live off the earnings of others and the stirring up of trouble, it would not have been necessary for the legislature to dissolve its corporation. These matters are known to everybody in this city and vicinity. They are worth considering carefully, with especial consideration of the fact that the trouble was incited by outsiders who do no work themselves, but make their livelihood by inciting the prosperous and contented to discontent.

These persons got their salaries. What did the mill owner, workers and home owners in Rifton get?

## HELPING THE DISABLED.

It is stated that "jobs for nearly 50,000 disabled soldiers have been found in 1,000 industrial plants" in Pennsylvania, but to this gratifying showing is added the information that "only a small proportion of the 50,000 business concerns solicited have so far expressed a willingness to place disabled veterans." This shows that the work of restoring disabled soldiers to civil life, optimistically represented as highly successful, is encountering great difficulties. If employers are asked to take crippled soldiers and pay them salaries without efficient service in return, their hesitation would be natural enough, but the plan is to put the disabled through a course of training and place them where they can actually perform acceptable service of its kind.

The problem of finding jobs for disabled soldiers, though more immediately urgent and with a larger patriotic claim, is less serious than the problem of providing remunerative work for persons disabled in our industrial plants, the number of the latter being so much greater, with a total at present, it is said, of fully half a million. In behalf of these victims of industry a bill was recently reported favorably in the

Senate providing annual grants of one million dollars from the Federal treasury for the training and replacement of cripples at remunerative labor, these grants to be matched by the states, dollar for dollar. If the public conscience can be aroused to this extent in behalf of the victims of industry, patriotism should find a way to provide for the victims of war.

## Sorry He Spoke.

If ever a man admired his wife, that man was Howler. At the party, when Mrs. Howler was asked to sing "There is a Garden in My Face," her husband gloved with pride.

It didn't matter though she had a face like a hippopotamus and voice like an elephant. He sat beaming as she sang.

When about half way through, he whispered to his neighbor:

"Don't you think my wife's got a fine voice?"

"What?" said his neighbor, who was a bit deaf.

"Don't you think my wife's got a fine voice?"

"What?"

"Don't you think my wife's got a fine voice?" roared Howler.

"Sorry," said the other shaking his head. "That awful woman over there is making such a frightful row, I can't hear a word you say."—London Tit-Bits.

## Very Tight.

Chairman Colver of the federal trade commission, was talking about a new food trust.

"The rich men who would form such a trust as that," he said—"the rich men who, in these heroic times, would fatten off the poor—well, such men are tight. Yes they're tighter than little Willie's new pants."

"My new pants is too tight," little Willie complained. "They're tighter than my skin."

"Nonsense! Impossible!" scoffed his mamma. "Nothing, your absurd child, could be tighter than your skin."

"Well, these pants is tighter, anyhow," persisted Willie. "I can sit down in my skin, but I can't in these pants."—Exchange

## Evolution of Clothes Terms.

Recent and diverse of clothes terms these are that indicate the evolution of clothes among our ancestors. Tight, which has been used as a term of respect, is a common term in general, was a common term in general, and was the term used in the past.

It was fairly common, and eventually it came to be applied to the clothes that were made from the "tight" or small cut.

## The waist-seam models

YOU'RE sure to like them especially young men. We can tell you, confidentially, that it's going to be the style for young men this season; puts a little military touch to the thing that makes quite a bit with the men "coming back," as well as the fellows who stayed.

## Hart Schaffner &amp; Marx styles

They know how to do it; they are the best style designers in the country; there are new ideas in pockets, in lapels and in various other features.

## WHAT THE "FOND DU LAC" WILL ACCOMPLISH.

It will do what five horses will do do it better—do it faster—will work continuously—needs no rest—needs only when it works—requires one-half the value of feed—it will pull plows, listers, graders, scrapers.

Will pull two 12 or 14-inch mold-board plows 2 to 2½ miles per hour, plowing 5 to 7 acres per day of ten hours, where five horses can pull the same plows.

Will disc 20 to 25 acres per day.

Will harrow 40 to 50 acres per day.

Will cut 20 to 25 acres of grass per day, using two mowers.

Will harvest 15 to 20 acres of grain per day.

Will pull a wagon loaded up to 6,000 pounds on an ordinary road.

Will seed 30 to 35 acres per day.

Will roll 40 acres per day.

Will pull more than one of many machines or implements.

### "It Goes Where None Dare Follow."

Will pull several wagons, mowers, and other implement in train. Will pay for itself and a new Ford in two years.

Will pull any implement or machinery with all the speed the implement can stand, regulating the speed by the use of the varying sized gears, which can always be furnished when desired.

### Performance Guarantee

We positively guarantee that the combination of the FOND DU LAC and a Ford in good condition will start and run continuously on high gear, developing power equal to five good horses.

LIFE OF FORD equipped in this manner will be at least as long as when used for pleasure, as the load on the motor and transmission gears is not increased. The engine does the pulling on high gear. The pull comes on the new axle, wheels and draw bar, which are amply heavy to withstand it.

## KENNEDY'S TRACTOR FEATURE OF SHOW

Central Garage Now Handling  
Trucks and Tractors as Well as  
Pleasure Cars of Several Makes.

OREN M. KENNEDY.

Oren M. Kennedy, proprietor of the Central Garage, corner of Broadway and St. James street, and distributor for the Reo, National and Scripps Booth pleasure cars, Reo and International trucks and International tractors, said this morning:

"Never before has the American automobile industry placed upon the market such beautiful cars for pleasure body designs and mechanical perfection as today are being shown by the different dealers. The standard of efficiency in mechanical performance has reached the limit and the comfort afforded for riding qualities leaves nothing to be desired in the motor vehicle world for the most critical buyer."

"More interest this year will be centered on the practical tractor that has recently been introduced for farming and agricultural purposes and the lasting and economical features of this new method in the motor industry is bound to be noticeable and recognized by the food producers of our rural districts. The performance of the tractor alone will prove its worth as a reducer for the cost of food production."

"The convincing necessity of the motor truck is evident on the street every day. The convenience of prompt delivery service has been one of the large factors in placing the light truck on its present basis and the higher powered truck has overcome many troubles in distant transportation of supplies and freight of all kinds."

"The sole attention of the Kings-

ton motor car dealers has centered on the success of the Automobile Show that opens in the Armory tomorrow night and the doubt has passed for the biggest and best show ever held in this city. Attendance at the show will convince the public of the high standards of the output of the American automobile industry."

## PENSIONED AFTER FAITHFUL SERVICE

R. H. White of 260 Smith avenue, superintendent of plumbing, has been retired and pensioned by the New York Central Railroad system, by reason of his having reached the age limit, the retirement taking effect on March 1. Mr. White came here from Ohio during the construction of the West Shore railroad as superintendent of the company's water system and has been in continuous service since that time. Before coming to Kingston he was with the Lake Shore & Michigan Southern Railway for eleven years. He retires with a clear record and the best wishes of his officials and of all his fellow employees.

### PORT EWEN.

Port Ewen, March 12.—Eosop Council, No. 42, Sons and Daughters of Liberty will meet in Spinner's Hall this evening at 7:30 o'clock.

Mrs. Munroe Burger of Kingston called on friends here Tuesday.

There will be a meeting of the Sunday school board at the chapel of the church this evening at 8 o'clock.

Several from this place attended the union service of the Methodist Churches of this century group of churches at St. James's Methodist Church on Sunday evening and heard Dr. Corbin, a returned missionary from India, give a soul-burning and soul-searching lecture on the needs of the world. The lecture was illustrated and it was one of the greatest ever heard; and all who attended were glad that they had the opportunity of attending.

The fourth quarterly conference of this charge will be held in the chapel of the Methodist Church at 8 o'clock on Thursday evening and because of this prayer meeting will be held on Friday evening.

J. B. Green of Madison county is visiting his sister, Mrs. E. A. Bookhout, at the Methodist parsonage. A meeting of the Ever-Ready Club will be held at the home of Miss Ida Shaw on Bayard street this evening.

## PLANNING YOUR VEGETABLE GARDEN?

Here Are Good Varieties—Seed Suggestions By State College Experts—Order Early.

Those who expect to have home gardens this year should select seeds of standard sorts of vegetables from a good seedsmen and order at once, according to the New York state college of agriculture, which warns against being misled by fancy descriptions in seed catalogues.

The quantities of seed necessary for 100 feet of row to furnish vegetables to be used fresh and for storing and canning for four people are here given. By consulting these lists, the gardener who is limited to small area may determine which crops will be the most practical in his garden.

For a Family of Four.  
The approximate quantities of seed that should be purchased for a garden which is to supply vegetables for successive plantings throughout the season for a family of four are here given:

Snap bean, 2 quarts; stringless green pod, Wardwell's Wax; beet, 4 ounces; Crosby's Egyptian; early cabbage, 1 packet, Copenhagen Market; late cabbage, ½ ounce; Danish Ballhead; carrot, 1 ounce; Chantrelle; Danvers Half Long; sweet corn, 1 to 2 pints; Country Gentlemen; Evergreen; eggplant, 1 packet; Grand Rapids; lettuce, ½ ounce; Black Beauty; May King; Big Boston; onion (sets) 4 to 6 quarts; White Portugal; (seed) Yellow Danvers, 8 ounces; pea, 2 to 4 quarts; Laxtonian; parsley, 1 packet; Moss Curled; radish, 1 ounce; Scarlet Globe; tomato, 1 packet; Bonny Best; cucumber, 1 ounce; White Spine (for slicing, Boston Pickling (for Pickling).  
Quantity to the Row.

The following list gives the quantity of seed required for 100 feet row: Bean, 1 pint; beet, 2 ounces; cabbage, ½ ounce; corn, ¼ pint; eggplant, ½ ounce; lettuce, ½ ounce; onion (seed) 1 ounce; (sets) 1 quart; pea, 1 to 2 pints; potato, 5 to 6 pounds; radish, 1 ounce; tomato, ½ ounce.

### A Famous "Oasis."

"Did you see Congressman Twobble while you were in Washington?" "No. He instructed his office force to say to any one who called that he had gone over to Baltimore to spend the day."

"He actually left a message to that effect?"

"Yes."

"Well, at any rate, he has the courage of his convictions."—Birmingham Age-Herald.

**BLACK URGES EARLY BUYING**

For Both Economic Value and Pleasure, the Demand for Automobiles is Increasing Faster Than the Supply.

Peter A. Black, of the Eagle Garage, agent for the Hudson, Cole, Essex and Buick cars, who will exhibit a fine line at the Automobile Show which opens in the Armory tomorrow, says:

PETER A. BLACK.

"From present indications I believe there will be a rapid growth of sales in automobiles this year. Statistics prove that the average farmer buys a car for its economic value. The recreation and pleasure it brings is a secondary consideration.

"The man of today, whether in business or professional life, needs the recreation as well as the practical benefits derived from an automobile. We fully realize that the automobile industry is one of the greatest in our country today. I believe that it will be ten or twelve months before the factories can operate their full capacity.

"I would suggest that early buying be encouraged, on account of the shortage of cars this year. All are looking forward for a nice business during the show."

**OUR DAILY PATTERN.**

2531—Here is a simple but pleasing model, suitable for gingham, seersucker, chambray, percale, gabardine, serge, velvet and silk. It is a one-piece style with a broad belt arranged at high waistline. Either style of sleeve will be becoming.

The pattern is cut in 4 sizes, 6, 8, 10 and 12 years. Size 12 requires 3 1/2 yards of 44 inch material.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state size wanted.

**Catalogue Notice.**

**WEST SAUGERTIES.**

West Saugerties, March 12.—Wilson Hommel and family spent Sunday at the home of his brother, Milton Hommel, in West Camp. Roland Osborn and family of Tannersville spent the week end with his parents, Romaine Osborn and wife. A very pleasant party gathered at the home of Mr. and Mrs. Henry Bach on Saturday evening. Among those present were Victor Hommel and wife of Manorville, and as Victor had his violin and Henry could play an accompaniment on the piano, they had an old-fashioned country dance. In the intervals the Pathe records provided music for while, one or two steps, or fox trot dances as desired. After the dancing Mrs. Bach served refreshments, which were very welcome and everyone decided they had a very pleasant time.

Charles Schalk of Tannersville took dinner with his parents on Sunday, after which he took Roland Osborn's family home.

St. W. Brown of Saugerties was in this place on Sunday.

Hobart Bach and Uncle Henry were in Tannersville on Monday.

Mrs. S. T. Cole spent Sunday afternoon with Mrs. David Cole and family.

Hobart Bach, Elden Myer, Claude Hommel, Milford Carr and El-

well Doyle went to Saugerties Monday night to be initiated into the mysteries of the drill.

Mrs. John Carr called at the home of her aunt, Mrs. David Cole, on Sunday.

Elden Myer and Claude Hommel, while drawing ice with their auto truck on Monday, had a serious blow out and break down, so they were unable to keep their contract to fill J. W. Cole's ice house, which means a serious loss to both parties as the ice is losing instead of gaining these days.

The C. E. Society of this place (it is rumored) will have a leader from out of town next Sunday night and a good attendance is hoped for.

Mrs. Peter Hommel and children of Platte Clove were guests of her sister, Mrs. John Carr, of Pleasant Valley Farm on Monday.

Mr. and Mrs. Charles Rightmeyer and daughter, Mrs. Marjorie Osborn, spent Sunday with Correllus Wolsten and wife.

The machinery for a portable saw mill went up the foot hill on Tuesday morning. Mr. Schoenharz has bought the Adams property and is going to cut the wood on it, which we hope will give work to some of our male residents.

**WHITFIELD.**

Whitfield, March 11.—Mr. and Mrs. Jerome Enderly and daughter, Vera, spent Saturday in Kingston.

Mr. and Mrs. John Enderly entertained at their home on Saturday. Mr. and Mrs. Charles D. Osterhout and son, Mr. and Mrs. DeRoy Baker and son of West Saugerties. A pleasant day was spent.

Norman Reedy of Lyonsville has employment at Jerome Enderly's.

Mrs. Florence Osterhout spent Wednesday in Kingston.

Mrs. Josephine Barley spent Sunday

night with her grandparents, Mr. and Mrs. J. F. Quick.

Our school is progressing nicely under the management of our teacher, Miss Moore.

Joe Barley, who had his leg broken a few days ago while at work in the mill of E. G. Barley, is getting along nicely. The young man's clothing caught in a part of the machinery carrying him with it. His garments, with the exception of his felt boots, were torn in shreds from his body. His leg between the ankle and knee was broken, also the bones badly shattered. He managed to make his way to the part of the mill where George Barley was winding feed, but not a murmur escaped his lips. George placed him on his shoulder and carried him up the steep hill to his home. Dr. Hunker was called and set the broken bone. Joe has many good friends who wish him a speedy recovery. It seems almost a miracle that he escaped with his life.

A few nights ago an owl was caught in the chicken house of Jake Ryder. It was passed on to a friend to be shown to another neighbor, and then the bird was to be killed. The friends let it go by accident so it may call around again.

Mrs. Della Davis and son, Calvin, Mrs. Arthur G. Davis and daughter, Marjorie, spent last Wednesday in Kingston.

Miss Moore spent the week end out of town.

**LADLETON.**

Ladleton, March 12.—Mr. and Mrs. Cole returned home Monday from Branch.

Sherman Brown visited at Eris Bros. Friday.

The town board met Saturday. Charles Beardslee was appointed as-

essor to succeed William Ryan, who moved from town.

Mr. and Mrs. Joe Eris and Mrs. Lorent and son have been visiting at Eris Bros.

George Walter Eris spent the week end with his people at Denning. Herbert George has purchased the Lawrence Backman farm.

Mr. and Mrs. Will Smith and two daughters and Mr. and Mrs. Joseph Smith and son visited at Charles Schult's Sunday.

J. William Eris, supervisor, made a business trip to Kingston Monday.

Mrs. James Bailey has gone to the hospital for an operation.

No school Monday; teachers' conference.

Sherman Anderson has purchased the Van Wagner buildings of Mr. Auerbach and will take them down in the near future.

## NEW YORK RED CROSS CONFERENCE

Among Best Attended Ever Held—Million Garments Needed Monthly and Treasury Being Depleted.

The ornate and handsome ball room of the Pennsylvania Hotel in New York city, was the scene on Saturday last of one of the most largely attended conferences of chapter delegates of the Atlantic Division of the Red Cross ever held. There were some sixteen hundred delegates present at the morning session of the conference, and at least two hundred more were in attendance in the afternoon. The entire program, which included the following numbers, had to do with the future plans of the Red Cross, both for the present and of a permanent character:

### Morning Program

Albert W. Staub, assistant manager, Atlantic Division, presiding. 10:00 a. m.—Chapter Production. Miss Ina M. Taft, director, bureau of production, National headquarters. Albert T. Tamblin, director, bureau of development, Atlantic Division. 10:45 a. m.—Permanent Nursing Service Activities: Miss Clara D. Noyes, acting director, department of nursing, National headquarters. Miss Elizabeth Fox, acting director, bureau of public health nursing, National headquarters. 11:30—Open discussion on disposition of raw materials, chapter equipment; Red Cross Magazine and other chapter problems.

### Afternoon Session

Ethan Allen, manager, Atlantic Division, presiding. 2:30 p. m.—Address: Present Problems of the Red Cross. Dr. Livingston Farand, chairman, central committee, National headquarters. 3 p. m.—Home Service Program: J. Byron Deacon, acting director general, civilian relief, National headquarters.

Throughout the meeting was most inspiring and profitable, especially as all subjects were freely discussed from the floor by the delegates from Connecticut, New Jersey and New York states, which comprise the Atlantic Division. The delegates from the Ulster County Chapter were Mrs. T. J. Hickey and Mrs. C. N. Reed. A full report of the conference will be given to the executive committee of the Ulster County Chapter by the delegates; and later such facts as will be helpful for the public and general members of the Red Cross to understand for the furtherance of the work will be published in The Freeman.

Three facts, should however, be known immediately. Miss Taft, director of the Bureau of Production, was most emphatic in stating that all of the refugee garments which have been made by the chapters, either knitted or sewn, have been shipped to the countries so badly needing them, and furthermore, all of the garments have been made exactly right, and needed no small alteration on reaching their destination, in spite of propaganda to the contrary.

In order that thousands of men, women and children may not actually suffer cold and lack of decent clothing, it will be necessary to send to the other side at least one million knitted or sewn garments a month until early summer. From March 24th to 31st, there will be carried on throughout the country a campaign for the collection of used clothing for the same need.

Finally, all chapters will be asked to hold onto their funds for the present at least, and it is hoped that when called upon to turn in their surplus moneys they will prove sufficient to take out the national treasury, the bottom of which can already be seen.

## PAY AND FILE INCOME TAX BEFORE MAR. 15

U. S. Internal Revenue Bureau Gives Warning That Severe Penalties Will Be Enforced.

## WOMEN WITHIN LAW'S SCOPE; HOW THEY REPORT INCOME

The Income Tax drive comes to a close on Saturday night, March 15.

All payments and returns due on that date under the provisions of the new Revenue Law must be in the hands of local Internal Revenue Collectors before their offices close that night.

The Income Tax is being collected to meet the war expenses. Every person who should and voted his horn on Armistice Day is now called upon to contribute his share of the cost of winning the war.

The laggards and the dodgers will face severe fines and jail sentences. The Internal Revenue Bureau announces that its officers will check us all up to see that every person who comes within the scope of the Income Tax law did his share.

### Where to Pay and File.

Residents of New York state should make their returns and pay their taxes to the nearest of the following collectors of Internal Revenue: Vincent H. Rierdan, Buffalo; Neil Brewster, Syracuse; Roscoe Irwin, Albany; Mark Elsner, 1150 Broadway, New York City; William H. Edwards, Custom House, New York City; Bertram Gardner, Brooklyn, N. Y.

Payments sent by mail should be attached to the returns and should be in the form of check, money order or draft. Cash payments by mail are sent at the taxpayer's risk of loss.

If you are unable to make your return personally because of illness, absence or incapacity, an agent or legal representative may make your return.

If there are any doubtful points as to your items of income or allowable deductions, you should get in touch at once with a Revenue officer or a banker for advice.

### Women Pay Tax.

Women are subject to all the requirements of the Income Tax. Whether single or married, a woman's income from all sources must be considered.

If unmarried, or if living apart from her husband, she must make her return for 1918 if her net income was \$1,000 or over.

If married and living with her husband, her income must be considered with the husband's in determining the liability for a return. Their joint income, less the credits allowed by law, is subject to normal tax. The wife's net income is considered separately in computing any surtax that may be due. Husband and wife file jointly, as a rule. If the husband does not include his wife's income in his return, the wife must file a separate return.

### Severe Penalties.

The new Revenue Law places severe penalties on a person who fails to make return on time, refuses to make return or renders a fraudulent return. For failure to make return and pay tax on time a fine of not more than \$1,000 is named, and 25 per cent of the tax due is added to the assessment. For refusing wilfully to make return, or for making a false or fraudulent return there is a fine of not exceeding \$10,000 and imprisonment of not exceeding one year, or both.

### Farmers' Income Taxable.

Every farmer and ranchman who had a fair or a good year in 1918 must heed the Income Tax this year. He must consider all his income as taxable. He is entitled to deduct from his gross income all amounts expended in carrying on his farm. The cost of farm machinery, farm buildings and improvements cannot be deducted. The cost of live stock, either for resale or for breeding purposes, is also regarded as investment.

### Overtime and Bonuses Taxed.

Salary and wage earners must consider as taxable every item received from employers and from other sources. Bonuses and overtime pay are to be reported, as well as the regular payments.

### Allowances for Losses.

Losses sustained in 1918 and not covered by insurance are deductible items if incurred in the taxpayer's business or trade, in any transaction undertaken for profit, or arising from fire, storm, shipwreck or other casualty, or from theft.

## SQUARE DEAL FOR EVERY INCOME TAX PAYER

Washington, D. C.—The rights of all persons now filing income tax returns are fully protected by provisions for assessments, refunds and appeals, says Commissioner Tamm.

"Every person can be sure of a square deal. No person is expected to pay more than his share of tax. If a share is determined solely by the amount and nature of his net income for 1918, as defined in the law."

"Abatement petitions are dealt with openly and fairly. Refunds will be made in every case where too much tax is erroneously collected."

"The Income Tax is 'on the level' all the way through."

## KRONOLD SECURED FOR FIRST SYMPHONY CONCERT MARCH 24

HANS KRONOLD.

With Joseph M. Herbert actively interested and actively interesting other of our live business men in the Kingston Symphony Society, that worthy and desirable institution is sure, at last, to meet with the recognition and support in this city which it deserves.

The Symphony orchestra will this season give two concerts of unusual merit and enjoyableness. The first concert will be given at the high school auditorium on Monday, March 24, in the evening, and the public rehearsal in the afternoon will be free to all school children.

The soloist for that concert will be a man already beloved by Kingston's musical people both as an artist of rare ability and as a man. This artist Hans Kronold, the American cellist of great fame.

### Is Thorough American.

Throughout the war Hans Kronold has been indefatigably playing for our soldiers in Camp Dix, Camp Merritt and Pelham naval camp. Nor is that all. Before large audiences on his tour in Maine, at the Red Cross concert at St. Andrew's Church, on his appearance in Georgia, at the Engineer's Club of New York and in the camps, Mr. Kronold has had something very worth while to say. Here is a short excerpt from one such address:

"Ladies and gentlemen, there is hardly an appearance which I have made since our beloved country was forced into a war of liberty, at which I have omitted to say a few words concerning my nationality. I am not a German! Thank heaven!

(Long applause). I never had any German relatives! (Applause). The name 'Hans' is not my original name, but was adopted when I was a boy on account of the length of my original name, 'Jeremias.' I am of Polish descent, but would be a hypocrite if I were to use this fact at this time, as I have never given any thought to that unfortunate country, which like many others has been a victim of the miserable Prussianism.

"The German government has no greater enemy than I am."

Fine Orchestra Program.

Since the beginning of the war, Mr. Kronold's motto has been at all times, "Never refuse to serve the country and to make the boys who go over there happy."

So much for Mr. Kronold as a patriot. As a musician, he is not only an artist of exceptional merit, technically, but his playing has always possessed that sympathetic quality which has deeply stirred the hearts of his listeners at all times and places. He has been greatly interested in the possibilities of the Kingston Symphony Orchestra and those in charge are indeed to be congratulated upon having secured his services as soloist at this first concert of this season. In addition to Mr. Kronold's playing, an especially fine and pleasing program is being most carefully rehearsed by the orchestra, so that the concert will go far to make up this season for the lack of other good music to which Kingston audiences have been accustomed for the past few years.

## PLAY TRICKS ON HUNS BY HIDING TREASURE

Family in Lille Conceals Auto and Tires From Soldier Searchers.

It is now permissible to tell of the hiding places of French and Belgian inhabitants, where they saved personal property from requisition or confiscation by the Germans. This information was at first held up for fear the Germans in their retreat might tear down houses where they suspected concealment of property.

In Lille one family had an alcove boarded up and wall paper plastered over the boards to match the paper of the rest of the chamber, which was the living room. In this alcove were hidden a complete automobile, excepting the frame, including two extra tires; also 800 bottles of wine, bronze and copper candlesticks and other ornaments. This family was in "hot water" several times when visited by German searching parties.

The method of the searchers was for noncommissioned officers to engage the woman of the house in conversation upon some alleged breach of regulations while German soldiers secretly made their way into the house and gained every floor.

The soldiers with lanterns would sound walls, ceiling and floors in an endeavor to find the suspected cache. They would trace exposed water pipes, gas pipes and electric wires. The family with the boarded up alcove was fortunate to escape all the wall tests.

A number of families, even with German officers and soldiers billeted in their homes, were able to clean out hiding places behind wainscoting where they stored a surprising amount of wine and other goods greatly desired by the enemy. Many a hole was dug in cellars and covered with big flat stones, and many persons had money and jewelry sewed up in hidden pockets in their clothing.

"They were not so clever as they thought they were, those Germans," smile the people of Lille, the largest French city that had been occupied by the Germans. Then with a wink they show you what escaped becoming loot.

## "BLACK JACK" KISSES JEAN

French Boy Reminds American General of Home.

An old Atlanta newspaperman now in France writes describing a visit of General Pershing to the front just before the drive for and capture of Flinches.

"When the general came into the yard at Amiens twenty-nine of us were playing tag with Jean, the 6-year-old mascot of Base No. 48," he says. "Of course we all snapped to attention and saluted. And little Jean, clicking his heels in true military fashion, came to attention with an American salute, holding it like a small statue until the 'big chief' returned it. The instant the general finished his salute he walked over to Jean, lifted him up and gave him a regular old campaigner's hug with a regular American daddy kiss right on the mouth. Jean, though blushing furiously, chirped: 'Hello, General Fair-eh-shang!' And there came into the general's eyes a suspicious moisture indicating that he might be thinking of another 'kid' a little bit older, somewhere in America."

## THIS CHURCH IS RICH

Refuses One Million for an Oil Well in Cemetery.

The Merriam Baptist church of Ranger, Tex., which already has acquired an income of \$200,000 a year through oil wells sunk in its church yard, has refused \$1,000,000 for the right to develop wells in the graveyard which adjoins the church, it became known here.

The graveyard now is surrounded by oil wells and numerous companies have made the congregation, which has only 23 members, fabulous offers for the burying ground.

The congregation has voted that none of its members shall profit personally by its good fortune, but that the entire income shall be devoted to the glory of God. The sum of \$100,000 already has been distributed among Baptist institutions in this state.

## MOUNTAIN LION CAUGHT

That Animal Fell into a Trap Set for Coons.

Jacob Gilbert of Grass Valley, Nev., exhibited a handsome young California lion which had been captured with a trap set for coons. He had set his trap in Clear creek between North San Juan and Freeman's Crossing and was astonished when he went to visit the trap and saw a large lion valiantly trying to shake it loose. Gilbert sized his victim up and, knowing that the only good lion was a dead lion, he proceeded to empty the contents of his trusty gun into the animal's body. The animal measured six feet from tip to tip.

No More "Half-Sold" Trouser. Declaring that unpadded seats result in "undue wear" on the trousers of the members of the Ohio house of representatives, Assemblyman Long introduced a resolution authorizing the purchase of seat covers. The measure was adopted by unanimous vote.

## 400 Little French War Orphans

See Y. M. C. A.'s Paris Wonderland

The famous Ice Palace in Paris, the most elaborate recreation building, probably in all Europe, is one of the chief delights of the doughboys in the French capital. Every form of amusement—movies, musical concerts, vaudeville and games of all sorts and descriptions—is to be found there since the Y.M.C.A. took over the building and turned it into a great recreation center for American boys overseas.

Into this wonderland, four hundred little French war orphans were led recently and made the guests of honor of the doughboys and the "Y" during one whole day. They were entertained with a special musical concert, and had front seats at a vaudeville show. They saw reels and reels of movies, shuttling over the action of "the man with the foot"—a famous American comedian. They were shown how to play some of the strange American games, though many of these games were familiar under their French names.

From forenoon until evening they romped and ate and laughed. Then, after more candy and ice cream and lemonade, came the final surprise. Every one of the youngsters got a present of some sort. Dolls, picture books, skipping ropes, pop guns, trains and jumping jacks appeared as if by magic and the children were loaded up with them before they started for home. By common impulse the doughboys had elected themselves a committee to help the "Y" see to it that everybody had a good time, and the only complete beard were from the young guests who presented at having to go home at all. It was the greatest day in all the short lives of these four hundred orphans. Now to play some of the

## HELP!

You may be able to defend yourself from a frontal attack, but how about it if you are held up from the rear?

Your body has to fight constantly against disease. It isn't always a fair fight, because constipation is a treacherous enemy that you usually don't recognize until too late.

Stagnating, poison-forming food waste in your large intestines, helps disease to attack you and hinders you from defending yourself. Such self-poisoning causes over 90% of human illness.

You may be held fast for months in the grip of constipation, trying vainly to free yourself by taking castor oil, pills, salts, mineral waters, etc., in order to force the bowels to move. Not only will the constipation grow worse with the continuance of such remedies but you will be less able to defend yourself against the attack when it comes.

On the other hand, Nujol overcomes constipation and brings about the habit of easy, thorough bowel evacuation at regular intervals. It acts gently and harmlessly, at all ages under any conditions.

Take Nujol and constipation can't sneak up on you and cripple you when you least expect it.

Get a bottle of Nujol from your druggist today and write for free booklet "Thirty Feet of Danger."

**Warning:** Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. All druggists. Insist on Nujol. You may suffer from substitutes.

### Chinese Seclusion.

So successfully has China succeeded in secluding herself from the rest of the world that there are places within her borders where Christianity has never been and does not even to this day. How very remarkable this fact is will be realized when one considers that the Christian white man has been the most restless wanderer known to history.

### Soldering Aluminum.

French manufacturers are the most successful in use of aluminum solder. They use it in proportions as follows: Zinc, 80 parts; copper, 8 parts; aluminum, 22 parts. For soldering aluminum by means of the ordinary soldering iron, 85 to 90 parts of tin are recommended to 5 to 8 parts of aluminum, which makes an ordinary soft solder.

## HAND GRENADES GONE, THEY THREW STONES

Loss of Equipment Fails to Kill the Fighting Spirit of the Yanks.

The fighting spirit that made the American army irresistible is illustrated in the case of Private Michael J. Feeney of Company C, One Hundred and Fourteenth Infantry regiment, Twenty-ninth division, who, with his "buddy," named Brady, put a German squad to flight by hurling stones at them. The incident is related in a letter received in New York from First Lieut. T. J. B. Laug, Feeney's commanding officer, who vouches for its authenticity. Lieutenant Laug volunteered from Jersey City, while Feeney's home is in Baronne, N. J.

The Twenty-ninth division was in heavy fighting in a wooded district in or near the St. Mihiel sector.

"Feeney and his running mate, Brady, were occupying the same bunk hole in the woods," writes Lieutenant Laug. "There was just some tangled underbrush between them and the lines of Boches close in front. During the early morning some Boches who evidently had come up during the night got close enough to hurl their hand grenades into our lines. We were not in trenches. We had gone far, far beyond them."

"One Han hurled a grenade quite accurately and it landed on the edge of the hole which was the 'bunking lodge' of Feeney and Brady. Feeney saw the grenade coming and jumping himself, he landed his comrade, Brady, after him into the next hole less than a foot and a half to the right. Of course he didn't have time to save his equipment."

"The grenade exploded with a terrible noise. It shattered the stock of Feeney's rifle, making it useless, but Feeney wasn't long in deciding that the 'Boche' was a dirty lot and needed a beating. He had no gun and no grenades so, with a curse at the maker and his servants, he stood up in plain view of the enemy and threw rocks and stones at the Huns a few yards away."

"They evidently didn't feel safe for long Feeney and his mate, Brady, and thinking they were due for a shower of grenades, beat a mighty hasty retreat for their own territory."

## KANGAROO GETS MAD

Hits a Deer With His Tail in a Fight.

"Ned Kelly, the old buck kangaroo, has been having a fight with the boss stag of the axis deer herd," said Sergt. McGee of the San Francisco park police, "and it is the first time I ever heard of two herbivorous animals so widely different in species finding common ground for a quarrel."

"As a matter of fact, it was the axis deer that started the trouble. He was trying to show off before the dogs and started butting at poor old Ned Kelly, who was peacefully loafing about with no thought of trouble. The first butt of the deer set Ned thinking, the second set him mad, the third—well, Ned Kelly just turned about and gave the axis deer one wallop under the stomach with his tail. You could hear the smack five blocks away, and it simply knocked the deer flat. It dropped as if it had been shot, while Ned Kelly just hopped away as happy as a bird."

## ATTACKED BY COON

Ferocious Animal Fastened Teeth Upon Aged Man's Hand.

A. M. Kenzie, 74 years of age, of Mitchell, S. D., started out to look at his traps, and at a certain point in the bluff observed a freshly dug hole. Dropping on his knees he proceeded to investigate, whereupon a large coon ferociously attacked him, fastening his teeth in Mr. Kenzie's hand.

He fought the animal as best he could, and finally succeeded in getting his knife out of his pocket. Opening the blade with his teeth he made an effort to cut the coon's throat, but the beast had so badly lacerated his arm and hand that it was almost impossible for the old gentleman to subdue him. Finally he succeeded in cutting the coon's windpipe, but not until the animal had torn the flesh from his hand and arm and completely shredded his coat sleeve up to the shoulder.

## CAPTAIN SNYDER'S WELCOME HOME

His Friends and Neighbors Decorate Their Homes and String Huge Banners Across the Street—Adopt Resolutions of Commendation.

Captain Frederick Snyder telegraphed his wife from Camp Upton Tuesday that he expected to arrive home for a brief furlough this afternoon. Captain Snyder has just arrived from overseas with the 27th Division.

His friends and neighbors when they heard that Captain Snyder was expected home today got busy and a delegation filed application with the board of public works for permission to place huge banners across the roadway. Permission was granted.

This morning two huge banners inscribed "Welcome Home," were stretched across the street at the corner of Cedar street and Clinton avenue and one at the corner of Henry street and Clinton avenue. Every house in the block was also decorated with the national colors.

Captain Snyder resides at No. 44 Clinton avenue, which lies between Cedar and Henry streets.

Captain Snyder was one of the first physicians from this vicinity to volunteer for medical service with the colors. He entered the service in May, 1917, and sailed for France the following May. He was commissioned a captain of the Medical Corps in September of 1918 and was with Field Hospital No. 106.

In addition to decorating the houses and hanging out the welcome banners the neighbors and friends drew up the following resolutions of commendation:

"We, the undersigned, neighbors and friends of Dr. Fred Snyder, of 44 Clinton avenue, Kingston, N. Y., take this opportunity to commend his patriotism in devoting himself to the cause of humanity, by his enlistment for service, and the work he did and sacrifices made as a surgeon in the United States Army during the great war in Europe, and now that Almighty God in his infinite wisdom has spared Dr. Snyder to return safely to his home in the city of Kingston, we heartily congratulate Dr. Snyder on his safe return and hope and trust that he may be permitted by Almighty God to live long and prosper, and be our friend and neighbor for many, many years."

"Hearts of the World."

"The sweetest love story ever told" is the description given to David Wark Griffith's latest spectacle, "Hearts of the World," to be seen at the Kingston Opera House tonight and tomorrow. The play was filmed in France but no attempt is made to reproduce the war, but rather using the war as a background, a romantic story is unfolded. Griffith is the man who produced "The Birth of a Nation" and other great picture plays, and the present one is said to be even better than his former successes.

O. E. S. Social.

Clinton Chapter, O. E. S., No. 145, will hold a dance social in the chapter room at Masonic Hall on Thursday evening, March 13th. All members and friends of the order are asked to consider this a personal invitation. Cards will be provided for those who care to play and a delightful evening is assured.

## FLAUNT WEALTH DUE TO WAR

Extravagance Indulged In by Japan's "Newly Rich" Have Brought Forth Bitter Condemnation.

Mr. Shiomi, a Tokyo barrister, in the Horitsu Shimbun (Law Journal) refers to some remarkable examples of the extravagance indulged in by certain "narrkio." It is said that a well-known mine owner in Kyushu gave a dinner party in Tokyo recently to 50 guests at 300 yen a head. The caterer, somewhat at a loss to know how to "go the limit," provided a "gelsba" for each guest, engaging all the most expensive members of the profession who were available.

A Kobe "narrkio" entertained some guests to dinner at a Tokyo restaurant the other day, the cost per head being 100 yen. A "funn-narrkio," during a stay at Hono, ordered by telephone from a Tokyo restaurant two dishes of "unogidomburi" on condition that the food should arrive hot after traveling about 100 miles. The proprietor of the restaurant took the order, engaged a motorcar, fixed up a "bilbach" to keep the food hot, and delivered the goods at the mountain resort in two hours and a half, returning with 200 yen in his pocket.

Mr. Shiomi fears there will be many more cases of crazy waste of money by "narrkio," who, he says, are stingy enough in donating money for the relief of the poor or sufferers from calamities. "They are simply mud-men whose actions corrupt public manners and morals."

The Tokyo barrister thinks that just as it was legal under the feudal system to confiscate the property of such swollen-headed men, it would be advisable today to levy a heavy impost upon them so that they may be prevented from repeating such foolish actions as those referred to.

## HOW TO TRAP SUCCESSFULLY

Two Ways of Taking the Wary Mink—Snare Into Which "Brer Fox" May Fall.

If a mink makes a hole through a snowdrift he will use it again and a trap set in it will catch him.

After cold weather sets in, when setting in shallow water for mink, choose a place where the current runs swiftly and is not likely to freeze up.

When trapping foxes use a No. 2 double spring trap. This style of trap is known as "the fox trap."

If you wish to be real foxy and cunning yourself, try setting three traps, one in an old path without any covering, and one on each side, skillfully covered. The fox will give all his attention to the uncovered trap and by going around it may step into one of those on the side.

It is not much use to try to trap foxes or any other such wary animal without a good scent.

An ear of corn stuck in the mud near a trap makes an excellent bait for coon.

One of the best places to look for coon signs is in a cornfield.

Marie's American Anthem.

In far away France little Marie, aged six, visited the Red Cross hospital near her home every day, and became very popular with the convalescent American soldiers there. She soon became very good friends with the soldiers and they delighted to teach her scraps of English. When they sang she joined them in their American songs. One day, in Marie's school, teacher asked her class the title of America's national anthem. The class looked blank, until Marie, with a flash of inspiration, jumped to her feet and announced, "Hail! Hail! the Gang's All Here," in quaint, rolling English.

Heating the House.

The proper temperature for various rooms of the home are as follows: The living room should be 70 degrees, no more. It should be occasionally aired so that it does not become close, but the doors should be kept closed into the hall. The dining room and kitchen should be heated to 65 degrees. Most kitchens rise higher than that. The bedrooms should be heated not at all, except for the little time that the occupants use them for dressing. The bathroom should be made as warm as you choose and the halls should be given no special heat, as we are always exercising when we are going through them.

## To Keep Young.

The great enemy of youthfulness in the drying-up process, and this is why we should not only keep as much as possible with the young but should enter into their joys, their plays, with zest and enthusiasm. We should ramp and play with them, interest ourselves in the things that delight them, instead of pushing children away from us and restraining them all the time, regarding them as a nuisance and a bore. Children were given us to keep us youthful, to keep our sympathies fresh.—Exchange.

## Use Time to Advantage.

Time, which never stands still itself, will not allow any one of us to stand still. It delivers into our hands sixty minutes every hour and compels us to dispose of them in some way. Whether we will or not, a constant accounting has to be rendered. One who falls into the habit of dissipating time dissipates not only opportunity but happiness, for the spendthrift of time becomes a spendthrift of the other things which make life worth while.—Forbes Magazine.

## Obstinate Chest-of-Drawers.

E. V. Lucas tells of an innkeeper who in his will set apart the interest on \$300 for an annual supper to the new-boys of his town; and of another man who left the interest on \$1,000 to pay for "a treat" to certain school children, "to be in the nature of a surprise." Mr. Lucas himself would like to leave the interest on \$1,000 "to that maker of chests-of-drawers whose drawers presented least resistance to the user."

## Hickory Best Fuel Wood.

Hickory of the nonvariegated woods is said to have the highest fuel value per unit volume of wood, and has other advantages. It burns evenly and holds the heat. The oaks come next, followed by beech, birch and maple.

## TO-NIGHT

TONIGHT—For two and a half hours you can be carried away from your work-a-day world into the land of romance and flowers, where lovers plight their troth beneath a white moon.

TONIGHT—You can enjoy the work of the man who touches the nerves of the nation and plays upon the heart strings of humanity as a great musician produces exquisite harmonies.

TONIGHT—You can be delighted by the sweetest and most beautiful romance ever unfolded either in literature or on the stage, rivaling Shakespeare's immortal "Romeo and Juliet."

TONIGHT—You can laugh through your tears at the antics of the Little Disturber and the insistent courtship of Monsieur Cuckoo, for they possess the comedy of humanity.

"HEARTS OF THE WORLD" IS MORE THAN A PICTURE PLAY: IT IS A WORLD DRAMA. IT GOES STRAIGHT TO THE HEART. IT IS THIS HUMAN QUALITY THAT MAKES "HEARTS OF THE WORLD" AS BIG AS MANKIND.—Charles Darton, Dramatic Critic, New York World.
